### **Aims**

ICCMIT2018 is an annual meeting for scientists, engineers and the academy staff of the universities belonging to discuss the latest discoveries and realizations in the foundations, theory, models and applications of nature inspired systems, and emerging areas related to the three tracks of ICCMIT`18 conference covering all the fields of communication Engineering, Management, and Information Technology in a technology panels given by world-class speakers and workshops.

ICCMIT is soliciting high quality technical papers addressing research challenges in the areas of wireless communications, cloud computing, mobility computing, data mining,, web mining and cloud data mining. Papers should present original work validated via analysis, simulation or experimentation. Practical experiences and Testbed trials also are welcome.

### **Scope and Interests**

**Topics of interest of the Symposium include (but are not limited) the following:**

#### **Cloud computing technology**

- Clustering and Classification
- Cloud as a Service
- Cloud Infrastructure
- Cloud Management
- Cloud Applications
- Cloud Computing and Big Data

### **Data Mining**

- Web Mining
- Data Mining
- Health informatics mining
- Ontology mining
- Cloud data mining

### Scientific Committee

- 1- Prof. Mohammad Al-Hmdany, University of Fallujah, Fallujah, Iraq.
- 2- Prof. El-Sayed M. El-Horbaty, Ain Shams University, Egypt
- 3- Prof .Amer Goneid, American University in Cairo, Egypt.
